

Notus Wood

From nature with love

About Us

We are an ambitious manufacturing company.

Notus Wood is a manufacturer of natural parquet floors with a unique character since 1999. We produce single strip oak three-layer parquet floorboards. The highest quality is ensured from careful selection and delivery of wood to the factory to extremely precise parquet board preparation cycles – edge formation, wood brushing, coating with the desired shade and oil. We use glue by Kiilto (Finland) and oil by Osmo (Germany).

We invest in technically advanced equipment and modern technologies. Notus Wood products are manufactured under the strict control of qualified professionals at all stages of production, which guarantees compliance with the highest quality standards. We can meet the needs of the most demanding customers, guaranteeing the highest product quality and product durability.
